

Coming August 31, 2017, the sequel to Erik Mauritzson's hit thriller Grendel's Game!

When a terrified woman falls from a rooftop across the street, Sweden's Chief Superintendent Walther Ekman is unexpectedly thrust into an international investigation that threatens to end with his death.

As the search deepens, Ekman and his team gradually uncover a multinational drug and human trafficking ring with an influential clientele. After an unexpected Moroccan connection is made, Ekman is led to a remote farmhouse prison outside Stockholm that held kidnapped women, where he discovers that a Moroccan confederate has exacted a terrible revenge.

With his friends, Garth Rystrom and Valdis Granholm, National CID officers, Ekman travels to Morocco to rescue five trafficked witnesses and uncover the foreign assassin. They find themselves in the middle of a politically sensitive operation to close down the ring, becoming targets for the vindictive head of the Moroccan network.

Although his investigation of the traffickers has ended successfully, Ekman is still hunting for the hidden murderer he knows must be somewhere out there.
